June 30-July 14

Arts and Empowerment

Since February 2017, UGA Professors, graduate students and Clarke Middle School faculty have worked with Clarke Middle School 7th and 8th grade girls to explore topics related to empowerment and public art. Funded by Athfest, the project resulted in an exhibition of 25 "Power Pose" photographs that represent the energy and strength, and unique and collective spirit of the girls in our community. The photographs are displayed in windows of participating Athen's businesses. Use the map to locate the photos!
